STATEMENT:

It has been a pleasure serving Eagle River the past 10 years. As your voice in Juneau, I am committed to representing the best that I can ... through dedication, soliciting your input, and making difficult decisions in your interest.

I will continue to seek ways that will make state government more efficient which ultimately protects all of us from new or increased taxes while at the same time protects the integrity of the Permanent Fund. I believe that it is still essential to seek out ways that make government customer service oriented by using Internet technology where possible.

As a strong proponent of economic development, I continue to seek ways that provide a healthy and stable economy that renders good paying jobs for Alaskans. I have a track record for:

- Supporting the responsible development of our natural resources
- Local hire
- Expanding our mining, timber, and tourism industry .
- Development of a natural gas pipeline
- Ensuring a strong military presence in our community

Recent fundamental changes to our education have returned K-12 and the University system to world-class status. I'll continue to work toward smaller class sizes at the K-12 level and work with the University system to ensure that we continue to keep our brightest high school graduates in state.

My service to you is unwavering and built upon an honest and ethical approach to government. With your continued support, we can work together to make government more accountable and efficient.
